

19 October 2023

Dear Press/Media Representative,

This document contains relevant information about Bricsys® and its products.

Enclosed you will find:

- 1. COMPANY BOILERPLATE
- 2. PRODUCT OVERVIEW
- 3. SOCIAL MEDIA

For any questions, please reach out to marketing@bricsys.com

1. COMPANY BOILERPLATE

Short Version

Bricsys[®], part of Hexagon, is the global technology company that creates the BricsCAD[®] family of computer-aided design (CAD) products and the Bricsys[®] 24/7 project collaboration platform. We are committed to the success of our customers by offering cost-effective, mission-critical CAD software with industry-leading product support. Learn more at <u>bricsys.com</u>. Hexagon is a global leader in digital reality solutions. Learn more about Hexagon (Nasdaq Stockholm: HEXA B) at <u>hexagon.com</u> and follow us <u>@HexagonAB</u>.

Long Version

Bricsys[®], part of Hexagon, is the global technology company that creates the BricsCAD[®] family of computer-aided design (CAD) products and the Bricsys[®] 24/7 project collaboration platform. We are committed to the success of our customers by offering cost-effective, mission-critical CAD software with industry-leading product support. Learn more at <u>bricsys.com</u>. Hexagon is a global leader in digital reality solutions, combining sensor, software, and autonomous technologies. We are putting data to work to boost efficiency, productivity, quality, and safety across industrial, manufacturing, infrastructure, public sector, and mobility applications.

Our technologies are shaping production and people-related ecosystems to become increasingly connected and autonomous – ensuring a scalable, sustainable future.

Hexagon (Nasdaq Stockholm: HEXA B) has approximately 24,000 employees in 50 countries and net sales of approximately 5.2bn EUR. Learn more at <u>hexagon.com</u> and follow us <u>@HexagonAB</u>

2. PRODUCTS OVERVIEW

BricsCAD[®]

A set of professional CAD and modeling tools made for designers, innovators, and engineers. Without compromise.

Product Levels of BricsCAD®

BricsCAD[®] Lite

Professional, familiar DWG-based 2D CAD with Al-driven productivity tools. For reviews, modifications and markup of engineering, architectural, and mechanical designs.

BricsCAD® Pro

Professional, familiar DWG-based 2D & 3D CAD with Al-driven productivity tools. For design and detailed documentation of buildings, engineering projects, and manufactured products.

BricsCAD® BIM

Professional, familiar DWG-based CAD with BIM capabilities. For designing, modeling, documenting, and detailing building designs in a single DWG platform.

BricsCAD® Mechanical

Professional, familiar DWG-based 2D & 3D CAD for mechanical design and drafting. For creating 3D assemblies and 2D detailed documentation of manufactured products.

BricsCAD® Ultimate

Professional, familiar DWG-based 2D & 3D CAD with building & manufacturing toolsets. For projects requiring BIM and fabrication-level mechanical design workflows in a single DWG platform.

Bricsys® 24/7

A cloud-based common data environment for document management and workflow automation. Bricsys 24/7 offers role-based security and unlimited users to help ensure that the right document is in the right hands at the right time.
